New World Compliance Engineering (We Manage DATA!)

Managing regulatory compliance for 30 plus years. Experience with the transportation of commodities by truck locally, provincially and cross the border including the United States. Construction, Warehousing, Shops, Buildings it is all about managing the compliance data.

We can help you get set up to achieve your Operating Authority, Safety Certificate and or Certificate of Recognition with a long-term plan to have you Audit ready at any time.

We roll up our sleeves and get the work and details completed.

Our expertise allows us to support and guide you through the regulatory process:

- analysis, research and requirements assessments
- operations planning and execution
- project and corporate regulatory management oversight
- regulatory filing and document administration
- supervision and solution implementation

Areas of experience that we pass onto you or we become your compliance representative.
